

6x4 Tandem Axle Slickline Crane Unit with Rear Boom Crane, Van Body and Drawworks

Model SC2-700 series is a tandem axle combination crane and wireline unit for slickline service work applications. This unit is designed to operate in arctic, desert and tropical oilfield environments and can be modified to perform other wireline service work applications.

Features

- Unit has the 160 series van body design with stepped down enclosed roof style over drawworks with double rear doors
- 100% aluminum operator's control cabin section
- All-weather thermal-insulated cabin with climate-controlled interior
- Generous quantity of external storage compartments and racks
- Ergonomically designed control panel
- Low noise level
- Rear corner-mounted hydraulic telescoping boom crane
- Rear hydraulic outrigger stabilizers
- Prepped, primed and painted

Hydraulic System

- Heavy duty closed loop hydraulic system
- Minimum maintenance design systems
- Friendly control design for operations

Wireline Accessories Options

Drawworks

- Multiple sized drum drawworks to fit desired quantity of 0.092", 0.108" or 0.125" slickline sizes

Spooling

- Linear bar spooler system

SC2-700 SERIES

Measuring

- Measure head
- Electronic display meters for line speed, depth and tension

Generator

- 10 kW hydraulic drive generator

Boom Crane

- Vertical reach 13.7m (45')
- Horizontal 11.9m (39')
- Capacity 3,630 kg (8,000 lb.)

Cab Dimensions

5.5 m L x 2.5 m W (216" x 98")

Cabin configuration can be varied to best fit end user's requirements.

Recommended Minimum

Chassis Specifications

Front Axle 6,530 kg (14,400 lb.)
Rear Axle 18,100 kg (40,000 lb.)

Winch Hoist Specification

SA2-300 Series Drawworks

Two independent drum drive systems. Each drum has a direct drum-mounted single speed planetary gear box with two speed hydraulic motor drive system.

Drum Line Capacity

7,600 m (25,000') of 0.108" or 0.125" line

Drum Drive Performance

Drum Speed

Up to 620 mpm (2,030 fpm)

Pulling Power

Up to 2,300 kg (5,030 lb.)

Additional drum drive system options available to best meet specific service work applications.
