

Light Weight Single Drum Diesel Engine Power Slickline Skid Unit

Model SS1-110 series self-contained slickline skid unit is designed to work in markets requiring economical, portable, compact, lightweight equipment for wireline survey service work on land based applications. The winch hydraulic system is powered by an 8 horse power diesel engine providing a good range of drum speed and pulling power for most light duty wireline service work applications.

Features

- Aluminum base frame all-welded construction
- Single point lift
- Light weight
- Compact design
- 8 horse power gas engine
- Closed loop hydraulic system
- Direct hydraulic motor drum drive
- Machined steel drum
- Mechanical disc brake
- Prepped, primed and painted
- Measuring head
- Depth mechanical counter
- Dual spring balanced manual hand spooler
- Minimum maintenance system
- Friendly control design for operations with operator's seat
- Non Zone applications

Options

- Weight indicator gauge and load cell
- Forklift pockets under skid
- Choice of other power source (diesel engine)

SS1-110 SERIES

Winch Hoist Specification

Max Speed	
Core	145 mpm (475 fpm)
Rim	245 mpm (800 fpm)

Max Pull	
Core	400 kg (870 lb.)
Rim	240 kg (525 lb.)

Drive specifications can be adjusted to best fit service applications.

Drum Line Capacity

4,000 m (13,100') of 0.092" or equivalent metric line sizes

Skid Dimensions

1.0 m L x 1.0 m W x 1.0 m H
(39" x 39" x 39")

Dry Skid Weight 275 kg (600 lb.)
